**Subject:** UPDATE - RE: Slides from Open Meeting June 8-1, 2020 EPA-HQ-OPPT-2019-0501 (ASBESTOS)  
**Attachments:** Asbestos Search at Docket OPPT-2019-0501.docx; EPA-HQ-OPPT-2019-0501-0054\_content.pptx

Jennifer, et al.,

I first took a look at the behind the scenes file location at FDMS ... and saw two documents that were included as PowerPoint versions (one at meeting and the other a public briefing).

I next went to the docket at regulations.gov and looked for files that matched what you sent to me for uploading. (at meeting slides including the formal presentation and the charge questions)

As you can see from the attached MS **Word** list of all documents at the public docket, the presentation in June by OPPT (68 slides) is there ... I downloaded the file and attached here as a QA step.

Note that the slides for the charge questions do not seem to be posted, but there are draft and final charge question documents at the docket.

Please note the Word document lists a few items in Part A that I copied from the listing as I was initially searching, but scroll down and the complete document listing for the docket is sorted by date.

**Conclusion:** The docket does contain all the (adequate) information that covers the supplemental files needed for the lead up to the meeting, at the meeting, and post-meeting report writing as well as posting OPPT's final documents for the Final Risk Evaluation.

**Conclusion:** The docket is NOT an easy place to work with and it is no wonder you had a request from the public—I can easily sympathize with the person asking about the docket!

**Question:** Since the Charge Questions are in the docket, is there any real need to post the slides used at the meeting?

If the answer is **No**, I'm going to leave things as are.

If **Yes**, and that might be for completeness of files at the docket then that's fine by me, I can upload this one last document later today.

Best Regards,

Hi Todd,  
We've discovered that the Asbestos SACC presentation is not in the docket (see email from member of the public below). I've attached PDFs of the slides presented at the meeting. Is it possible that you can help me with getting these in the docket?  
Thanks,  
Jen

Would you have access to these slides.

I am not sure what meeting this is?

Greetings Dr. Barone --

Are the slides from the referenced open meeting available? I would appreciate obtaining them as they would supplement the transcript that I downloaded.

Thanks in advance.

Stay well.
